This course aims to help parents/carers encourage and support their child's development.

Treasure Books is a short course looking at a much loved book in depth. The course will look at how you can support your child's development and confidence by drawing out different elements of the treasure book. You will explore how reading together can help your child, investigate different activities relating to the book and analyse and evaluate examples of techniques to support your child's learning. After each session you will have created fun activities that you can use with your child to develop their love of the treasure book and will have been supported by the course tutor to improve your own confidence with sharing books with your child.
